The aim of Kulturskolan's activities is to enrich, uplift and encourage aesthetic forms of expression and the development of children and pupils' creativity in Örnsköldsvik municipality based on their individual preconditions. Research shows that aesthetic forms of expression are beneficial to learning. The activities consist of courses in music, dance, theatre, film, and art and design, as well as aesthetic activities which take place in close collaboration between Kulturskolan and the school, for example in various projects in the aesthetic field.

Kulturskolan plays a crucial role in placing focus on cultural expressions, which is also beneficial to municipalities' development and to citizens. The courses are provided both at the respective schools and centrally in Örnsköldsvik, during and/or after school hours. It is also possible to hire musical instruments through Kulturskolan.
